

NOTES on Index of Missing Issues

Beginning in 2017, in the process of clearing out spaces in the Middleborough Public Library, missing issues of the *Middleboro Gazette* were discovered. The decision was made to index these issues as a set, rather than inserting entries into existing indexes of the appropriate time intervals. As a result, this index includes entries for the following issues indicated thus: Year (# of issues indexed). As existing indexes do not cover the years 1867 through 1904, this was a significant find.
